Development and finalisation of textbooks for different job roles (PAC 21.11) – Review meeting for the textbook on Telecom Technician IoT Device/System (TEL/Q6210)

The workshop for review and finalisation of the textbook on the job role on Telecom Technician IoT Device/System (TEL/Q6210) was organised from 16 to 20 September, 2024. In this workshop two experts Prof. Prakash Khanale, Parbhani and Prof. Rita Jain, Bhopal participated to review the draft contents developed in the previous workshops. They gone through the contents of the textbook and NOSes in the Qualification Pack. The experts suggested the modifications and alterations in the contents of textbooks of both the Grades XI & XII. They have also suggested to write some new contents and practical projects. In this workshop the contents were arranged unit wise. It was concluded that the contents would be rearranged and prepared within a month and then the final copy of the textbook should be checked with the experts.
