

PSSCIVE Contributes to the Capacity Building Workshop for Curriculum Developers, organised by SCERT Goa: 11-12 November 2024

The State Council of Educational Research and Training (SCERT), Goa, in collaboration with the Department of Curriculum Studies and Development (DCS&D), National Council of Educational Research and Training (NCERT), New Delhi, successfully conducted a two-day capacity-building workshop for curriculum developers on the 11th and 12th of November 2024 at the SCERT Goa premises.

The workshop aimed to introduce and enhance the capacity of curriculum developers on the latest teaching-learning materials developed under the National Curriculum Framework for School Education (NCF-SE) 2023 by the NCERT. A key objective of the workshop was to ensure the inclusion of contextual and relevant content and activities to meet the diverse educational needs of students at different stages of school education in the region.

Dr V.S. Mehrotra, Professor and Head of the Curriculum Development and Evaluation Centre (CDEC), PSSCIVE played a pivotal role in contributing to the workshop by providing expert insights on activities that could be included in the vocational education at the Middle stage. He apprised the participants about the activity book “*Kaushal Bodh*”, published by NCERT and emphasized the significance of aligning educational materials with the local skill needs and resources for enhancing the learning of students.

Participants benefited from detailed sessions conducted by faculty members from NCERT, who guided them through curriculum revisions, material development processes, and contemporary pedagogical approaches. The sessions underscored the importance of using instructional materials that are adaptable to the local context while maintaining national standards.
